This international EoC assembly will take place on the occasion of the twentieth anniversary of the Economy of Communion, launched by Chiara Lubich in Brazil, in May 1991.

The event will be a celebration and a reflection, a chance to deepen and understand the steps necessary for future development from 2011 to 2031: to continue to believe in an economy of communion, to live it, to make it grow beyond all boundaries, to plant trees that we cultivate today and which will bear fruit tomorrow.

Take part in the Assembly's preparation through monthly surveys on the official EoC website: www.edc-online.org
